

Early Lower Limb Intervention Orthosis for Therapeutic Treatment

Patient Management System
for trial or long-term use

- 1 Trial or long-term orthosis
- 11 Options in one system
- 1 System for multiple patient diagnoses

Provide a cost effect alternative to a custom orthosis, increase staff efficiencies, prevent or minimize impairment, and maximize function with the ELLIOTT™ orthosis. It's the Early Lower Limb Intervention Orthosis for Therapeutic Treatment.

We do not use PVC-based plastics, nor Latex in any products, which can pose risks to both medical professionals and patients.

Product #: **Adult** - 1190
Pediatric - 1090
Infant - 0090

The Details

- 1 KAFO variation
- 5 KO functions
- 3 AFO variations independent of KAFO
- 1 Open toe shoe
- 1 Quick disconnect off-loading foot segment

- Two variations of liners (Terry or Polyfoam) for multiple patient use (sold separately)
- The ability to be sanitized for multiple patient use
